A doctor, like anyone else who has to deal with human beings, each of them unique, cannot be a scientist; he is either, like the surgeon, a craftsman, or, like the physician and the psychologist, an artist. This means that in order to be a good doctor a man must also have a good character, that is to say, whatever weaknesses and foibles he may have, he must love his fellow human beings in the concrete and desire their good before his own.

-W. H. AUDEN

## PREFACE

Health is one of the basic human rights. It is also a major indicator that signifies a country's developmental status. Although Bangladesh is one of the densely populated country possessing limited resources; the health indices like MMR, IMR and infectious disease control capacity are much better than many other developing countries. Bangladesh has a unique health delivery system that is provided by both government and non-governmental health agencies. Much progress has been made in pharmaceutical sector providing affordable medicine, in fluid, hormones and anti cancer drugs. High quality international standard drugs are exported to USA and many European countries from Bangladesh.

Bangladesh has implemented its unique drug policy and ensured health delivery through essential drug concept. In spite of this efficient health delivery system, a significant percentage of population remains out of the total health coverage system.

To mend this shortcomings, a large number of medical graduates, competent and experienced health delivery personnel are needed for our country and globally.

So the aim of medical education is to produce doctors with wide range of skills as well as knowledge and appropriate attitude to meet the global needs and demand. In recent years a big number of medical colleges has been established in public as well as in private sector.

The secondary and higher secondary education system is multidirectional in Bangladesh. So after passing class XII about 5 million students become eligible to participate in medical admission test conducted by M.O.H. & F.W. ministry. Very few of them get the opportunity to be admitted in government medical colleges at public sector level.

So the health care need of majority population at the national as well as the global level cannot be fulfilled by the doctors that are produced at the current rate. To meet this global demand of skilled doctors, Prime Medical College was established in the year of 2008. Hence forth an unremitting effort was made by the teachers, entrepreneurs and students to establish the organization as one of the best private medical colleges in Bangladesh. The college authority is trying their best to fulfill the hopes and aspirations of students guardians and community.

## MESSAGE FROM CHAIRPERSON

Farzana Afroze  
Chairperson  
Prime Medical College  
Rangpur

Bangladesh has made significant progress in the health sector. Public and private medical colleges, medical universities, specialized private hospitals, rural health centers, and community clinics are all increasing in numbers. Despite these advancements, complete healthcare for the whole population has not been ensured yet.

Prime Medical College established with the objective of providing proficient gold-standard doctors who can serve both local and global healthcare requirements and will be able to tackle healthcare problems in the upcoming decades. Many breakthroughs have been achieved both in the medical college and hospital over the last 15 years since its inception. Aligning with the Bangladesh government's target of achieving the Sustainable Development Goal (SDG) objectives Entrepreneur has taken appropriate initiatives in health education and delivery system.

Prime Medical College aims to contribute meaningfully to the nation's accomplishment of the SDGs. To get through the target, the institute offers comprehensive clinical services ranging from primary health care to specialized and super specialized level. We hope to be able to make the medical college a center of excellence soon with the passionate cooperation and sincerity of all relevant sectors.

## MESSAGE FROM MANAGING DIRECTOR

Mohammad Mustafa Haider  
Managing Director  
Prime Medical College, Rangpur

Prime Medical College entered into a new era through the merger with Samuda Group, Bangladesh. Samuda Group is one of the topmost enterprises of Bangladesh. They share experiences in different fields of industrialization, trading and charitable activities. This merger has opened the door of opportunities for Prime Medical College to reach the paragon of Stake-holders and professionalism. At the height of covid crisis, Prime Medical College provided dignified health care facilities to the humanity with utmost dedication.

Bangladesh has attained lot of developments in the health sector. There has been a proliferation in health infrastructures such as public and private medical colleges, medical universities, specialized private hospitals, rural health centers and community clinics. In spite of these achievements, full health coverage has not been ensured for the total population. The Government of Bangladesh is considering attainment of the targets of Sustainable Development Goal (SDG) by earliest possible time.

Prime Medical College commits to play an important role to contribute the nation for the achievement of SDG. To reach the destination, Prime Medical College is providing clinical service from primary health care level to specialty and super specialty level comprehensively. With the heartfelt cooperation and sincerity of all relevant sectors we would be able to make Prime Medical College a center of excellence soon.

Present merger of Prime Medical College with Samuda Group, will help to rebuild the institute as an international level specialized medical education and treatment center.

### MESSAGE FROM ADVISER

Al-hajj Md. Abul Kalam  
Adviser  
Prime Medical College, Rangpur

Prime Medical College, Rangpur was established with the permission from Ministry of Health & Family welfare, Government of the People's Republic of Bangladesh. The medical college was affiliated with Rajshahi University and later on with Rajshahi Medical University as well.

It was a great challenge for the entrepreneurs to overcome the hurdles to establish such a medical college away from capital. In spite of the technical, financial and logistic constraints it became one of the best private medical colleges in Bangladesh.

Declaration of Article 15 of the constitution of the People's Republic of Bangladesh guarantees that health is the basic right of every citizen of republic.

To attain such a goal, competent health facility and skilled manpower in health sector both are essential. Prime Medical College is committed to produce skilled and competent medical graduates who can face and combat the present health crisis and challenges.

I hope the recent merger with this well reputed organization will further enhance the opportunities medical colleges an international standard medical institute.

## MESSAGE FROM PRINCIPAL

Prof. Dr. Md. Noor Islam  
MBBS; M Phil, FCPS (Medicine)  
Principal  
Prime Medical College, Rangpur

Prime Medical College is located in Rangpur, a beautiful place in northern Bangladesh. It started its journey with the goal of providing high-quality healthcare while also providing qualified medical graduates to serve the nation and the world. It is a full-fledged medical college with all of the modern medical education facilities. Modern equipments and training facilities are available in each department. A large number of highly experienced and dedicated teachers are involved in teaching, administering academic activities, and providing services to patients. Our faculty is committed to provide high-quality medical education in order to achieve excellence in education, training, and research. The college provides a welcoming environment for both international and local students. All of the students live at the college campus and participate in co-curricular and extra curricular activities that help to ensure a more friendly environment and strengthen the bonds among them. The college administration provides necessary counseling and takes special care of students with below par performances. The authorities also provide the highest level of security for all students.

I am excited to be a part of the vision to establish the medical college as a center of excellence in education and healthcare provision. I am confident that with all of your help and support, the college will discover maximum potential in the medical profession and become a one-of-a-kind model of health care provider.

I wish a cordial welcome to the newcomers and best wishes to everyone.

## MESSAGE FROM DIRECTOR

Brig Gen Dr. Md Golam Rasul (LPR)  
Director  
Prime Medical College Hospital  
Rangpur

It is a matter of great pleasure that Prime Medical College and Hospital, an esteemed medical institution in Bangladesh is going to publish the annual prospectus for the session 2023-2024. Prime Medical College hospital is one of the biggest tertiary level hospitals in Bangladesh. Having almost all the components of a modern hospital such as – major departments, subspecialty departments, modern diagnostic facilities, ICU, CCU, NICU, state-of-the-art OT complexes, dialysis centre, suitable wards & adequate cabins, in short it is a patient-friendly hospital for all classes of people.

Prime Medical College is a comprehensive teaching institution for health care professionals, having well-equipped class rooms associated with all major medical departments for practical and hands-on education. This hospital excels in the fields of medical training by having a number of world class examination halls for conducting practical and professional examinations.

The institution prides itself in being one of the few private medical colleges thriving in providing-post graduate training for professionals in medicine, surgery, gynae & obstetrics, and paediatrics being authorized by the Bangladesh colleges of physicians and surgeons (BCPS). In a nutshell, Prime Medical College & Hospital is an ideal and patient-friendly teaching hospital where all doctors, nurses, paramedics, technologists, and other supporting staff are relentlessly providing their service to patients with empathy and care.

As a director of this hospital, I aim to help this institution to keep pace with the rapidly changing medical fields, both in education and treatment. I wish that this renowned institution will continue its contributions toward the betterment of humanity in the future.

# RANGPUR

## AT A GLANCE

**Rangpur** is one of Bangladesh's eight divisions, with its headquarters at Rangpur Sadar. It is located in the northern region of Bangladesh. The river Teesta runs beside Rangpur, which is home to a vast irrigation barrage. Prime Medical College is a 30 kilometers drive from the nearest airport, which is located at Saidpur. Rangpur is also well connected by road and air to Kolkata, Kathmandu, and Thimphu. The city is one of the oldest in the country's northern area.

Rangpur is a place of old heritage, culture, and history. Raja Janoki Ballov, the Jamindar of Dimla, Rangpur, encouraged health awareness in the area by digging an 8-kilometer sewage canal in memory of his mother, Shyama Sundori. This Shyama Sunduri canal was constructed in 1857 with Sir Steuart Colvin Bayley's help to connect the two sides of the river Ghagat. Begum Rokeya (1880-1932), a renowned educationist was born in this region. Her enormous contributions still encourage women in the country to pursue education, and this made her a pioneer in female education in Bangladesh.

Rangpur, which is located in the northern region of the country and is considerably closer to the Himalayas, has a low temperature of 5 to 6 degrees Celsius in the winter and a high of 32 to 35 degrees in the summer. With the taste of the country's six seasons, the climate remains pleasant in Rangpur throughout the year.

Imparting medical education leading to a recognized medical degree is the first and foremost aim to establish the Prime Medical College. The Prime Medical College started functioning from 2008-2009 session with 50 students. The college got affiliated with Rajshahi University to the completion on 1st November 2010. Bangladesh Medical and Dental Council (BMDC) recognized the college on 6th June 2010. The 1st Professional MBBS Examination under Rajshahi University was held in July 2010 after completing two years of prescribed course of studies. Currently, the 15th Batch of the students is studying in the college. The Ministry of Health and Rajshahi Medical University were pleased with the academic performance of the institute and allowed to increase the seat capacity from 50 to 135. Now the college has a new 7 storied academic building with 40,000 sq.foot floor space in each floor with adequate parking facilities. All the departments are set up on its own premises including the college building with tutorial class rooms, laboratories, museum, office rooms, library, conference room & lecture galleries. The attached hospital (PMCH) is a tertiary care referral medical facility and provides excellent training to students, junior doctors and paramedics. The Hospital has the capacity of 750 beds. It is well equipped and provides quality health care to the public at a reasonable cost. The entire hospital staff are dedicated to excellence and service.

#### THE OBJECTIVES OF THE INSTITUTE ARE

- To promote and provide studies in Medical Science leading to be recognized by the postgraduate institutes
- To conduct research work on the diseases prevailing in the country
- To conduct research on medical education with the aim at raising the standard of medical education in the country
- To provide skilled manpower in the medical, nursing and paramedical fields
- To provide quality medical care and health services to people at reasonable cost

## FACILITIES AVAILABLE IN THE COLLEGE

### COLLEGE ACCOMMODATION

Prime Medical College is a seven storied building. All the administrative and academic activities are goes on here. This is a very spacious building with a modern structural design. All the modern facilities of an ideal medical educational institute are available. The outlook of the college building is very beautiful. Every floor has a capacity of approximately 40,000 sq. feet. There are an adequate number of teachers and other staff in this college. At present, the college has the capacity of teaching about 150 students per year.

### CLASS ROOMS

There are 4 large fully air-conditioned galleries with multimedia and a digital sound system for lectures. In addition, there are tutorial rooms and practical class rooms attached to the respective departments. The Anatomy dissection hall has sufficient cadavers for dissection. The laboratories of various departments like Pathology, Biochemistry, Microbiology, etc. are well equipped.

### COMMON ROOM

There are two common rooms for students (One for males and one for females) with television, WIFI, daily newspaper and some indoor games.

### TEACHING METHODS

Teaching is provided through lectures, demonstrations, tutorials, ward clinics, practical classes, field visits, study tours, and surveys on health problems. Monthly clinical meetings are held on a regular basis. Teaching aids such as overhead projectors, slide projectors, multimedia projectors, and computers with teaching CDs are used in the teaching of learning procedures.

## MEDICAL EDUCATION UNIT

MEU has modern computers, printers, scanners photocopier machine internet, and e-mail facilities. The computers are freely available to the students. The MEU has MEDLINE Database (1966 to current) on DVD/CD ROM with further access to the National Library of Medicine (NLM) in The USA through the Internet.

## EXTRA CURRICULAR ACTIVITIES

There are facilities for extra-curricular activities like Indoor/outdoor games, cultural programs, free blood donation camp, eyesight test, free donation of medicine for poor people, distribution of winter clothes, observation of national & International days, etc. Students publish wallpapers and annual magazine. Debates, seminars, and cultural events are held regularly. The college also publishes its own internationally recognized medical journal.

## COLLEGE CAFETERIA

There is a large and modern cafeteria at the college campus facilitated with quality foods and beverages for students & teachers according to their religious views and preferences.

## TRANSPORTATION

The college has Micro-buses, mini-buses, buses for student transport, field visit, and recreation visit.

## WEEKEND FACILITIES

The College has its own fleet of transport which can be used on a payment basis by the group of students both foreign and local for outside sightseeing visits, picnics, pleasure trips, etc. on the weekend with permission of the college authority.

## AUDITORIUM

Auditorium with a seating capacity 1500 Persons, which is situated at the top floor. There are adequate spaces for cooking and refreshment attached to the auditorium. It is used for cultural and co-curricular activities, seminars, workshops, etc.

## HOSTEL ACCOMMODATION

Prime Medical College has hostels for all the MBBS students and resident doctors on the campus. There are separated hostels for both male and female students and there are residential facilities for foreign students in a separate earmarked block. Residential facilities like single, double, and triple bedded room for student and table, chair, cupboard, 24 hours supply of water, electricity & laundry services are available. There are several kitchens (Vegetarian and Non-Vegetarian) to prepare the foods with considering the religious views. Hostel common room has the facilities like T.V. with Cables connection and indoor games.

## LIBRARY

The College has a fully air-conditioned library provided about 3292 latest edition text books and 1518 local & foreign journals on various subjects. Library has Bangabandhu Corner, Teachers Reading Area, Student Reading Area, Library Book & Journal Self, IT Corner & Newspaper Corner. World renowned journal Lancet, JAMA, BMJ also registered here. The library provides updated Medical information to students and teachers. The library reading room can accommodate about 450 students at a time. Students and teachers can also take text books for use at home. Wi-Fi internet connection has been provided in the library so that students can browse and download recent scientific materials. The library remains open 7 days a week from 8 am to 9.30 pm. There is also the scope of having photocopies and all other learning facilities available in the library.

## CONFERENCE ROOM

There is a fully air-conditioned well-decorated conference room having arrangement of sitting of 150 people. This is located in the ground floor of the college building.

## TEACHERS-GUARDIANS MEET

Academic Council and Guardians Advisory Committee hold meetings when necessary. They discuss all the aspects of academic matters of the college and suggest measures for improving the academic environment and total improvement of teaching in the college.

## GUARDIANS PARTICIPATION

Guardians' advice on college affairs is always encouraged. There is a Guardians Advisory Committee, which holds yearly meetings. Two representatives of guardians are included in the Governing Body. Guardians are communicated regularly about their children's academic performance and class attendance. They are often invited to put forward suggestions on how to improve the performance of the students. The Members of the Committee are selected annually from the guardians of the students.

## ADMISSION PROCEDURE FOR FOREIGN STUDENTS

At present, 135 Students get admission in each academic session. The Government of Bangladesh has permitted for admission of 45% of foreign students from 2014-2015 academic session. At present there are 655 students in five batches among them 251 students are foreigners.

### ELIGIBILITY FOR FOREIGN STUDENTS

Prime Medical College Hospital formally started its function on 17 August 2007 with a bed capacity of 310 which has now been extended to 750 beds. It is a tertiary care medical hospital. The hospital provides all sorts of Medical & Surgical services. It is well equipped with Medical, Surgical, Obstetrics and Gynaecological, Paediatric, Anaesthesiology, Cardiology, Gastroenterology, Nephrology, Neurology, Dermatology, Ophthalmology, Orthopedic Surgery, ENT, Urology, Neurosurgery Unit & Neonatal ICU. The Additional services are Haemo Dialysis Centre, Digital Color Doppler, Specialist Consultation Centre, and Diagnostic Centre supported by modern equipments.

The diagnostic facilities and qualities are very sophisticated. The institute provided modern Biochemical, Haematological, Microbiological & Histopathological examination facilities. The institute continues to acquire sophisticated medical equipments like CT scan, Imaging, Digital X-Ray, and ESWL stone crush machine.

Renowned specialists, highly skilled technicals, nursing aids and, supporting staff contribute to the reputation of this hospital as a medical centre of excellence in this region.

The hospital also has a good physiotherapy clinic, blood bank & dental unit. The ambulance service is available for 24 hours. The emergency department remains open round the clock. There is a large medicine store in the hospital which open for 24x7 hours where all medical & surgical requirements are available at a cheaper rate.

The hospital conducts humanitarian-social services (cataract operations, cleft-lip & cleft-palate operation) for the less privileged section of the society. These activities are performed free of cost. Dutch Bangla Bank is the main partner of these services. Following facilities are available in Prime Medical College Hospital:

Emergency & Accident (E&A)	Six Extensively Equipped Operating Theaters	Coronary Care Unit
Ambulance Service	Laparoscopic Surgery	Intensive Care Unit (ICU)
Blood Bank	Respiratory & Gastrointestinal Video Endoscopy	Neonatal Intensive Care Unit
Outpatient Department (OPD)	Sophisticated X-ray/ CT scan	Haemodialysis
Vaccination for Children	Color Doppler Echocardiography	Cardiac Non Invasive Laboratory
Reference Pathology Laboratory	Ultrasound	Lithotripsy

WE ARE BUILDING A CULTURE  
BASED ON THE HIGHEST STANDARD

## DEPARTMENT OF ANATOMY

PROF. DR. ANJUM ARA BEGUM  
PROFESSOR & HEAD OF THE DEPARTMENT

DR. NAHIDA NAZMUN NAHER AKAND  
ASSOCIATE PROFESSOR

DR. HAPPY ROY  
ASSOCIATE PROFESSOR

DR. DOLY DAS  
ASSIST. PROFESSOR

DR. MD. ABDUL MALEK  
CURATOR

DR. TOWHIDA AKTAR  
CURATOR

DR. FARZANA HAQUE  
SENIOR LECTURER

DR. H.M. KORESHI  
SENIOR LECTURER

DR. MUHAMMAD NAZMUL HUDA  
LECTURER

DR. MD. RAKIB HASAN  
LECTURER

## DEPARTMENT OF BIOCHEMISTRY

PROF. DR. RASHIDUL HASAN  
PROFESSOR & HEAD OF THE DEPARTMENT

DR. SULTANA TAHMINA HAQ  
ASSOCIATE PROFESSOR

DR. NARGIS PARVIN  
LECTURER

DR. NILUMA RANI RAY  
LECTURER

DR. ALAMGIR KABIR  
LECTURER

DR. MD. SHAHBAZ IBNE HAMID  
LECTURER

DR. MD. HELAL HOSSAIN  
LECTURER

DR. MOST. KHADIA PARVIN  
LECTURER

DR. MAHABUBA JANNAT  
LECTURER

DR. SHARMIN SULTANA  
LECTURER

## DEPARTMENT OF PHYSIOLOGY

PROF. DR. MD. MOMINUL HAQUE  
PROFESSOR & HEAD OF THE DEPARTMENT

DR. MAHFUZA PERVIN  
ASSOCIATE PROFESSOR

DR. MASUMA BEGUM  
ASSOCIATE PROFESSOR

DR. SURIYA PARVIN  
ASSISTANT PROFESSOR

DR. SURIYA NUSRAT ISLAM  
LECTURER

DR. MAHZERIN KHAN  
LECTURER

DR. SURAIYA JABIN JAMAL  
LECTURER

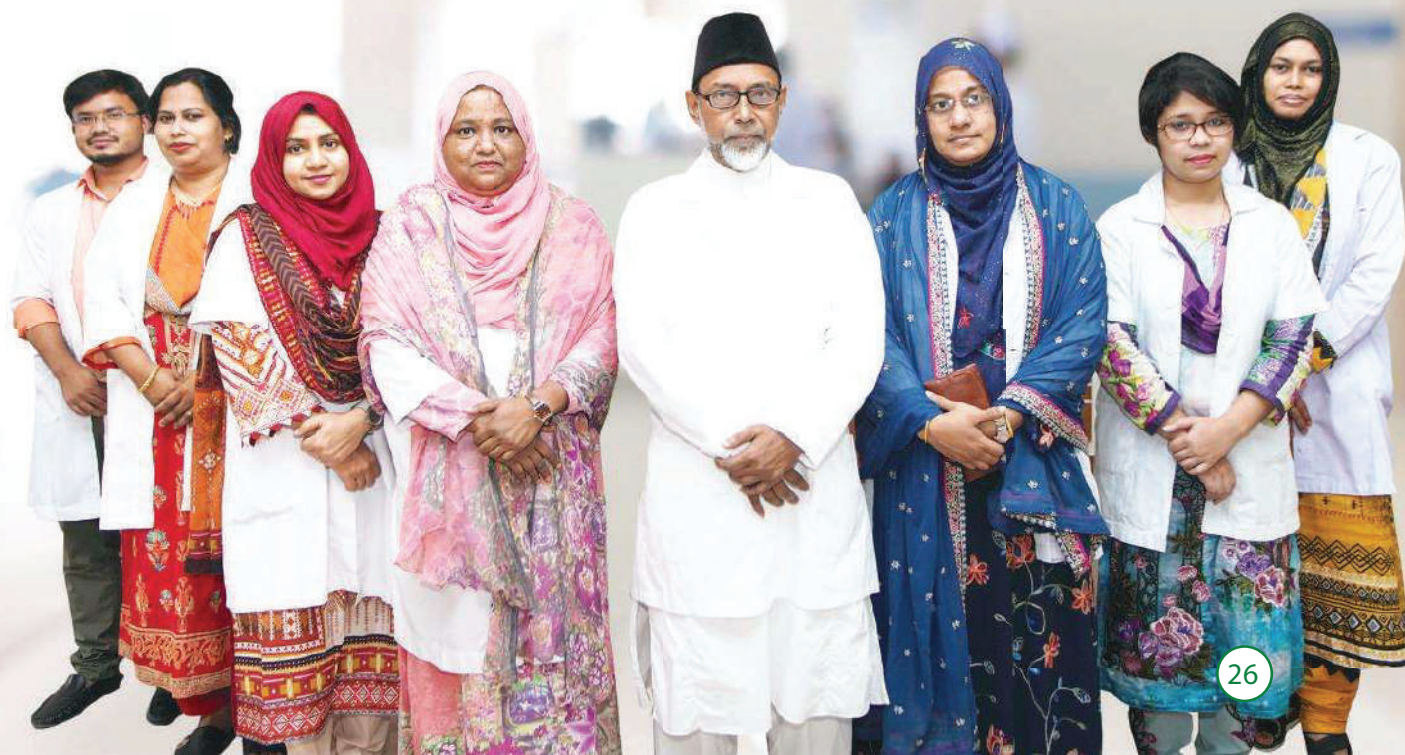

DR. KALICHARON BARMON  
LECTURER

DR. MASHIAT TA-SHIN  
LECTURER

DR. TASHIMA TARANNUM TANI  
LECTURER

## DEPARTMENT OF FORENSIC MEDICINE

DR. MD. AMIR UDDIN  
MBBS, MCPS  
ASSOCIATE PROFESSOR & HEAD OF THE DEPARTMENT

DR. KHALEDA PERVEEN  
ASSISTANT PROFESSOR

DR. DILLSHAD AFROZ  
LECTURER

DR. SABEKUN NAHAR  
LECTURER

DR. LIPI RANI RAY  
LECTURER

DR. MD. MAHINUR ISLAM  
LECTURER

DR. ARIFA ANAMIKA  
LECTURER

DR. SANJIDA MONOWAR  
LECTURER

DR. ISRAT JAHAN  
LECTURER

DR. AZIZATUL MOU  
LECTURER

DR. NESHAT YEASMIN  
LECTURER

DR. MASTURA BEGUM  
LECTURER

## DEPARTMENT OF PHARMACOLOGY

DR. FARHANA HAQUE  
MBBS, MD  
ASSISTANT PROFESSOR & HEAD OF THE DEPARTMENT

PROF. SYED A.M. ISRARUL BARI  
SUPERNUMERARY PROFESSOR

DR. MOMTAZ ZAHAN SHIMA  
LECTURER

DR. HASIBA HAMID  
LECTURER

DR. MOST. FAHEMA AKTER  
LECTURER

DR. RAWNAK ISLAM  
LECTURER

DR. MONIRA AKTER  
LECTURER

## DEPARTMENT OF COMMUNITY MEDICINE

DR. TAMANNA HAMID  
MBBS; MPH  
ASSOCIATE PROF. & HEAD OF THE DEPT

DR. MD. NAWSHADUZZAMAN KHAN  
MBBS; MPH  
ASSOCIATE PROFESSOR

DR. TANVIR AHMED  
LECTURER

DR. HASANUZZAMAN  
LECTURER

DR. REFFAT KARIM RINKY  
LECTURER

DR. AFRINA AKTER AROVI  
LECTURER

DR. MAHFUJA KHATUN MONI  
LECTURER

DR. MD. SHAYON MIA  
LECTURER

## DEPARTMENT OF MICROBIOLOGY

DR. MD. KHAIRUZZAMAN  
MBBS; M.PHIL  
PROFESSOR & HEAD OF THE DEPARTMENT

PROF. DR. PARIMALCHANDRA SARKER  
SUPER NEUMERARY PROFESSOR

DR. SARMIN SULTANA  
ASSISTANT PROFESSOR

## Annual Prize Giving Ceremony of Prime Medical College

## WE ARE VERY FORTUNATE TO BE HERE

Dr. Anju Bohara  
Intern Doctor, Nepalese

---

The college has excellent Infrastructure starting from 750 bedded hospital to integrated classroom. The Laboratories are well equipped with modern Instruments here. Actually all facilities are available here to make a student as a good doctor in future. We have opportunity for extracurricular activities, live cultural programmes and indoor/ outdoor games. The college has a group of dedicated, experienced and friendly teachers. Faculty members make the student feel easy in learning process.

---

## THIS IS THE LEADING MEDICAL COLLEGE IN NORTHERN REGION OF BANGLADESH

Shahina Sultana Khan  
PMC-11, Assam, India

---

The Prime Medical College is one of the best as well as largest medical college in the private sector in Bangladesh and I feel very much proud to be a part of this prominent institution. The entire environment is very compatible and the whole campus is covered under CC Camera. Above all, the management teaching staff & officials are cordial, carefull & give the most priority of the well being of the students & don't compromise with the quality education.

# INTERNATIONAL CODE OF MEDICAL ETHICS

The International Code of Medical Ethics, as adopted by the World Medical Association of London, in October 1949 are stated below:

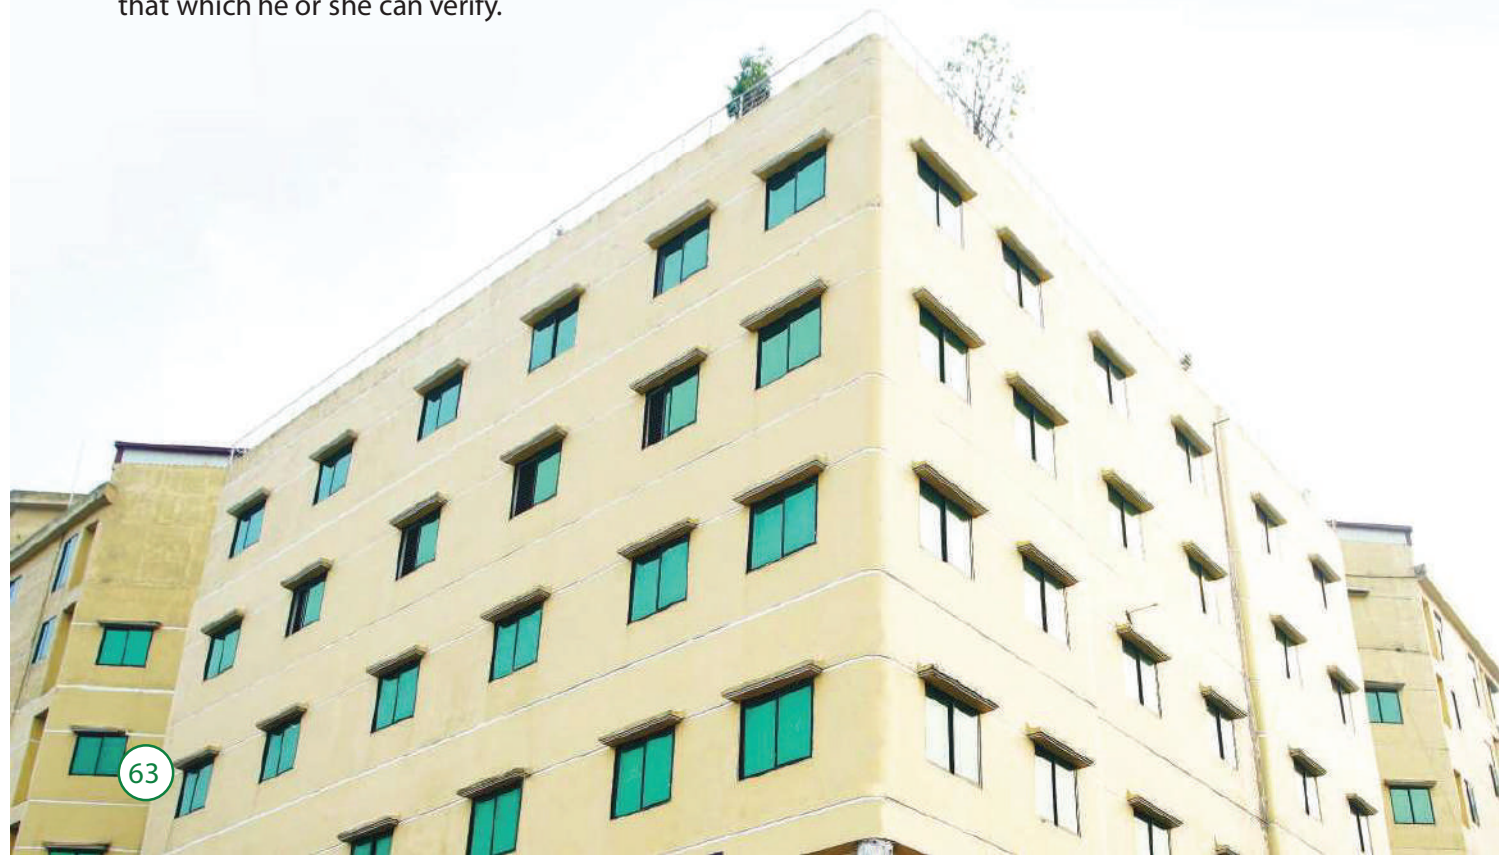

Duties of Doctors in General:

- A doctor must always maintain the highest standards of professional conduct
- A doctor must not allow himself or herself to be influenced merely by motives of profit

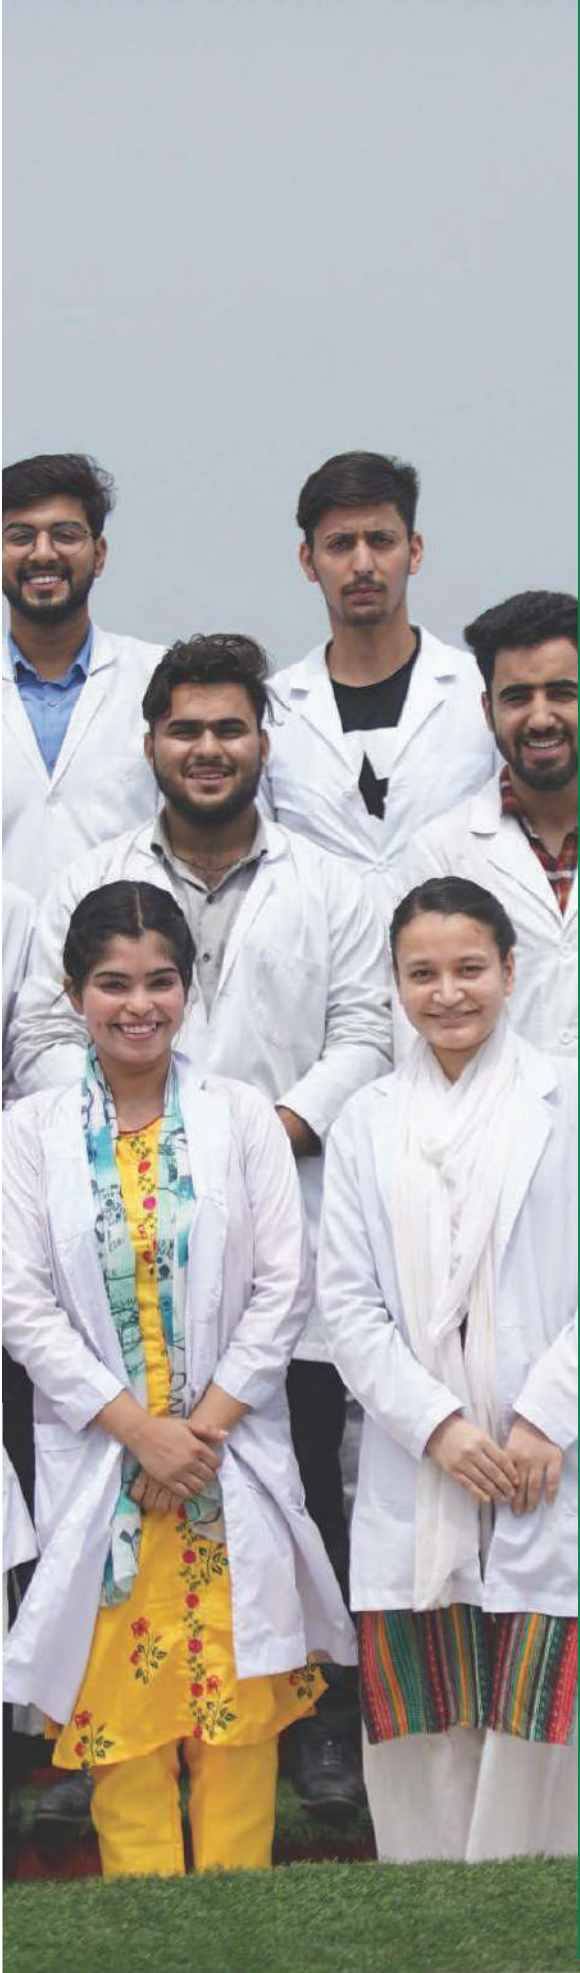

## THE FOLLOWING PRACTICES ARE DEEMED UNETHICAL

- Any self advertisement except such as is expressly authorised by the national code of medical ethics
- Taking part in any plan of medical care in which the doctor does not have professional independence
- Receiving any money in connection with services rendered to a patient other than the acceptance of a proper professional fee

Under no circumstances a doctor is permitted to do anything that would weaken the physical or mental resistance of a human being except from strictly therapeutic or prophylactic indications imposed in the interest of the patient. A doctor is advised to use great caution in publishing discoveries. The same applies to methods of treatment whose value is not recognized by the profession. When a doctor is called upon to give evidence or a certificate he should only state that which he or she can verify.

## DECLARATION OF GENEVA

---

The World Medical Association in Geneva adopted in September, 1948 the following declaration which is intended to be Sworn when a doctor is admitted as a member of medical profession:

- I solemnly pledge myself to consecrate my life to the service of humanity
- I will give to my teachers the respect and gratitude which is their due
- I will practice my profession with conscience and dignity.
- The health of my patient will be my first consideration
- I will respect the secrets which are confided in me
- I will maintain by all the means the honour and noble tradition of the medical profession
- My colleagues will be my brother
- I will not permit considerations of religion, nationality, race, party politics or social standing to intervene between my duty and my patient
- I will maintain the utmost respect for human life from the time of conception
- Even under threat I will not use my medical knowledge contrary to the laws of humanity
- I make these promises solemnly, freely and upon my honour
